Fuchsia Saturday is March 29, 9AM - 4PM

You buy the plants and pots . . . We'll plant them FREE!

**18th Annual Planting Event! Fuchsias or Hybrid Seed Geranium Starts are 5 for \$3.
 Come in early while supplies last!**

Choose from a great selection of flowering annuals to put in your planter, including:

- Fuchsias
- Geraniums
- Premium trailing plants like bacopa, lobelia and more
- Or any other plants purchased from Fred Meyer

Next, find the perfect planter or basket (or bring one from home). You'll discover hundreds of decorative planters in a variety of sizes, styles and colors at your Fred Meyer Garden Center.

Then just let us do the planting! We'll fill the container using **FREE** premium Black Gold potting soil.

Plan on hanging a basket of fresh spring color on your porch or deck? Remember to pick up some plant hooks and hangers while you're at the store.

How to keep your fuchsias blooming

- **Feed well.** For abundant blooms, add slow-release fertilizer to the soil or fertilize once a week with fertilizer formulated for blooming plants.
- **Keep roots cool and moist.** Fuchsias love partial shade, and will also thrive in partial sun if kept moist and protected from heat. Pulp pots and moss baskets can help keep roots cooler in hot weather, but remember to water frequently.
